Hamilton Transportation Master Plan
Five-Year Review and Update
THE PROJECT

Review and update of 2007 TMP

- Transportation policies and initiatives
- Public engagement
- Day-to-day Transportation Programs
- Project prioritization toolbox
Why Update

Need to address:

- 2007 TMP targets
- Moving around in our community
- Commuting in Hamilton
- A changing community
- Emerging transportation opportunities

Continued population and employment growth beyond 2031

Hamilton Transportation Master Plan
Five-Year Review and Update
2007 Key Objectives Relevant Today?

- Safe and convenient access
- Choice of integrated modes
- Support local business and economic development
- Compact urban form and transit-supportive development
- Efficient and affordable operations
- Livable neighbourhoods and rural areas
- Minimize impacts on air, water, land and natural resources

Hamilton Transportation Master Plan
Five-Year Review and Update
2007 Transportation Policies Relevant Today?

Review policy papers and undertake high-level analysis of:

- Public transit network
- Parking strategies
- Higher order network
- Corridor level analysis
- Area growth impacts
If We Don’t Update

Day to day transportation programs would not be current with community needs.

Capital infrastructure project priority and budget planning would not address evolving development trends and growth management policies in the OP.

Council and Staff could not respond to changing development standards and major economic planning considerations.
TMP STUDY AND PUBLIC CONSULTATION SCHEDULE

Stage 1
- Review of 2007 TMP
- Identify issues and opportunities

Stage 2
- Study Complete Streets
- Review of potential 1 to 2 way street conversions

Stage 3
- Review of policies in 2007 TMP
- Identify policy updates required

Stage 4
- Develop updated TMP
- Develop implementation strategy

Public Consultation
- March 23-26, 2015
- June 2015
- November 2015

November 2014 - March 2016

WE ARE HERE
The TMP Needs You

Opportunities to address existing and future system design / operations

Input on a Long Term Vision for the City of Hamilton transportation system and services

Identification of transportation system priorities

Existing transportation issues and constraints
WE WANT YOUR INPUT

Staff and Consultants

Comment Sheets

Group Discussions

Online
WHERE DOES YOUR INPUT GO?

TMP UPDATE

TRANSPORTATION PROGRAM PRIORITIES
INFRASTRUCTURE PRIORITIES
IMPLEMENTATION STRATEGIES
Next on the Agenda: Group Discussions
